EDUCATION

Columbia University, Barnard College

B.A in Cognitive Science, Concentration in Human Computer Interaction

Shoreline College

AA-DTA in Arts; GPA: 3.98/4.0; Dean's List

New York, NY

Expected 2027

Seattle, WA

Graduated 2025

SKILLS

Technical: Claude Code, Cursor, Figma, Next.js, Tailwind CSS, Node.js, Python, SQL, JavaScript, HTML/CSS, Vercel, Lottie, Framer, Adobe Creative Suite, SwiftUI

Design: AI Design, Visual Design, Interaction Design, Graphic Design, Motion Design, User Flows, Wireframes, Prototyping, Design Systems, Information Architecture, WCAG Accessibility

Research: Usability Testing, User Interviews, Heuristic Evaluation, Competitive Analysis, Rapid Iterative Testing, A/B Testing

PROFESSIONAL EXPERIENCE

Eden | Founding Design Engineer

- Leading **0-to-1 design** for smart AI glasses by prototyping the phone-driven, spatial in-lens interface in React and building the iOS companion app in SwiftUI.
- Naming the company and owning brand and motion end to end, from **30+ identity explorations** into a tokenized system of type, color, iconography and motion that renders glasses, phone and desktop from one source.
- Validating glasses-first interaction before building through **4 coded concepts, a 3-concept retention study across 12 sessions and 15+ competitor teardowns**, run directly with the founder; concepts helped raise **\$8M by Intel**.

Halodoc | Product Intern

- Shipping AIPrescription onboarding workflow for **20M+ monthly active users** through **4 prototypes and a 36-participant usability study**, cutting pharmacy support tickets **13%**.
- Leading PRD fixes by identifying production failures in Metabase, from a translation bug blocking catalog matching to 425 thumbs-down chatbot responses, then leading the PRD fixes that recovered lost orders and rerouted HILDA on user intent.

Conduit Commerce | Product Design Lead

Feb 2026 – May 2026 | New York, NY

- Designing Conduit's AI tool end-to-end: **11 usability tests, 4 customer journey maps**, working directly with the founder.
- Leading and mentoring **3 junior designers** through **4 rapid iteration cycles**, lo-fi to hi-fi prototyping.
- Shipping launch-ready UI, **2 UX copies**, and **4 motion designs** for a **Series A startup (\$53M raised)**.

Manus AI (acquired by Meta) | Product Design Intern

Nov 2025 – Jan 2026 | Bay Area, CA

- Shipping the hi-fi community website redesign for the Manus AI agent platform as **sole designer** for **2M+ users**.
- Driving end-to-end design through **2 iteration cycles** and **13 usability tests** for the Manus 1.5 Max launch.
- Designing PLG experiments and onboarding flows as Manus hit **\$125M ARR** and was **acquired by Meta (~\$2B)**.

SomiaCX (MUFG Bank) | UX Design Intern

July 2024 - Sep 2024 | Jakarta, Indonesia

- Cut support tickets **18%** by designing **6 product features**, with a projected **~25% drop** in branch-visit dependency.
- Architecting the shared UVP unifying 3 MUFG subsidiaries (banking, insurance, vehicle financing) into 1 financial app.
- Conducting market research, **12 usability tests**, and lo-fi prototyping to align stakeholders and a cross-functional team.

LEADERSHIP & INVOLVEMENTS

Lovable | Campus Ambassador

April 2026 – Present | New York, NY

- Testing **pre-release features** and reporting structured **usability feedback** ahead of public launch.
- Led **2 hands-on workshops** teaching students to prototype products with AI tools, driving campus adoption.

Design@Columbia | Co-President

Sep 2025 – Present | New York, NY

- Led **2 client acquisitions** for Y Combinator-backed startups, managing cross-functional teams end-to-end.
- Delivering product design and go-to-market strategy for early-stage founders, from user research to shipped interfaces.

Columbia Organization of Rising Entrepreneurs | PM Fellowship Lead

Sep 2025 – Present | New York, NY

- Hosting monthly student-led PM programs, partnering with leaders from OpenAI, Google, Microsoft, and Jane Street.
- Connecting students with **350 NYC startups** by hosting hackathons.

UinSTEM (Tesla partnership) | President

Sep 2023 – June 2025 | Seattle, WA

- Directed 12-member team organizing DEI initiatives with Tesla's Seattle headquarters.

ACCOMPLISHMENTS
