EDUCATION

Columbia University, Barnard College

B.A in Cognitive Science, Concentration in Human Computer Interaction

New York, NY

Expected 2027

Shoreline College

AA-DTA in Arts; GPA: 3.98/4.0; Dean's List

Seattle, WA

Graduated 2025

PROFESSIONAL EXPERIENCE

Eden | *Founding Product & Design Engineer*

July 2026 - Present | **New York, NY**

- Leading **0-to-1 product strategy** for an AI smart glasses platform, defining the phone-as-hub product architecture, roadmap, and feature scope end-to-end with the founder; concept work supported an **\$8M** raise led by Intel.
- Owning product discovery and prioritization through **15+ competitive teardowns**, **4 coded concept prototypes**, and a **3-concept retention study** across **12 user sessions**, validating glasses-first interaction and eliminating **2** directions before engineering build.
- Defining cross-platform product requirements across **3 surfaces**, codifying specs into a single tokenized source of truth that removed implementation ambiguity and cut design-to-dev handoff cycles.

Halodoc | *Product Management Intern*

Jun 2026 - Aug 2026 | **Jakarta, Indonesia**

- Led and owned the PRD for HILDA, an AI concierge built to lift checkout conversion through intent routing, then self-building an audit of **425 negative responses** against a **1,530-row bilingual answer key** that relocated root cause from answer quality to retrieval.
- Shipped the AIPrescription onboarding workflow to **20M+ monthly active users**, driving requirements through **4 prototype cycles** and a **36-participant usability study** to **reduce support tickets by 13%**.
- Diagnosed production failures in Metabase and scoped remediation with engineering after a translation bug collapsed product-to-catalog matching to zero, recovering lost orders at unchanged classifier precision.

Conduit Commerce | *Project Manager Contract*

Feb 2026 - May 2026 | **New York, NY**

- Leading end-to-end GTM strategy and brand redesign for a fintech startup **contributing to a \$36M Series A** co-led by Dragonfly and Altos Ventures, recognized on Forbes 30 Under 30.
- Driving product launch strategy for Copilot, Conduit's AI-powered tool, owning feature scoping, user flows, competitive analysis, and brand positioning for GTM rollout across LATAM, Africa, and Asia.

Manus AI (acquired by Meta) | *Strategy & Product Intern*

Nov 2025 - Jan 2026 | **Bay Area, CA**

- Led product strategy for a community platform redesign serving **2M+ users**, shipping **105 use cases** and **9 discovery features** that drove adoption of a general AI agent platform.
- Owned the growth experimentation roadmap across **5+ iteration cycles**, translating product-led growth testing into launch decisions for Manus 1.5 Max as the company reached **\$125M ARR** ahead of its Meta acquisition.

SomiaCX (Mitsubishi UFJ Financial Group) | *UX Consultant Intern*

July 2024 - Sep 2024 | **Jakarta, Indonesia**

- Shipped redesigned financial tool workflows that **reduced support tickets 18%**, partnering with engineering to eliminate friction across **9 banking products**.
- Defined product vision for a shared UVP architecture unifying **3 MUFG subsidiaries**, conducting **6+ stakeholder interviews** and **20+ usability tests** to align senior bankers on technical feasibility and commercial viability.

SKILLS

Product Delivery: PRDs, stakeholder management, acceptance criteria, roadmap planning, backlog prioritization, feature scoping
Technical: HTML/CSS, SQL, Python, R, Replit, Figma, Framer, Cursor, Lovable, Jira, Sketch, GitHub, Adobe Suite, Microsoft Suite
Strategy: User interviews, usability testing, heuristic evaluation, competitive analysis, rapid iterative testing, user flows
Analytics & Experimentation: SQL, KPI definition, funnel analysis, metrics debugging, A/B testing, experiment design
Design: AI Design, User Flows, Wireframes, Prototyping, Design Systems, Information Architecture, WCAG Accessibility
Frameworks: AWS, REST APIs, ETCD, CI/CD, CloudWatch, Kibana, Graph-Based Modeling, Relational Schema Design

LEADERSHIP & INVOLVEMENTS

Lovable | *Campus Ambassador*

April 2026 – Present | **New York, NY**

- Testing pre-release features and reporting structured usability feedback ahead of public launch.
- Led 2 hands-on workshops teaching students to prototype products with AI tools, driving campus adoption.

Design@Columbia | *Co-President*

Sep 2025 – Present | **New York, NY**

- Led 2 client acquisitions for Y Combinator-backed startups, managing cross-functional teams end-to-end.
- Delivering product design and go-to-market strategy for early-stage founders, from user research to shipped interfaces.

Columbia Organization of Rising Entrepreneurs | *PM Fellowship Lead*

Sep 2025 – Present | **New York, NY**

- Hosting monthly student-led PM programs, partnering with leaders from OpenAI, Google, Microsoft, and Jane Street.
- Connecting students with 350 NYC startups by hosting hackathons.

UinSTEM (Tesla partnership) | *President*

Sep 2023 – June 2025 | **Seattle, WA**

- Directed 12-member team organizing DEI initiatives with Tesla's Seattle headquarters.

ACCOMPLISHMENTS

Awards: Figma Top Campus User, YHacks '26 (1st), NYU UX Design-a-thon (2nd), Bootstrapping AI × Reality '25 (1st Sponsor Track)

Language: English (fluent), Indonesian (native), Mandarin (intermediate), German (intermediate)
